

Need for Industrial Level Solar Desalination

WATER STRESS BY COUNTRY

ratio of withdrawals to supply

This map shows the average exposure of water users in each country to water stress, the ratio of total withdrawals to total renewable supply in a given area. A higher percentage means more water users are competing for limited supplies. Source: WRI Aqueduct, Gassert et al. 2013

The Rule of Threes states that the human body can survive for:

- 3 minutes without oxygen
- 3 days without water
- 3 weeks without food
